👥 Reference

Mert Danışan - Simtek Otomasyon
Control and Automation Engineer
05389554557

Rıdvan ORUÇ - IDT Mekatronik
Engineer of Mecatronics/Founding member
05368288055

🎯 Objective

I met software in the second year of the undergraduate program. I studied embedded software first. Then the web world caught my attention. I learn new technologies every day. I am excited to solve problems and learn new technologies. I want to continue my career as a software developer. I found the job I wanted to do.

💼 Experience

Simtek Otomasyon — 01.02.2021
Intern — -
I developed s71200 Plc algorithms with Tia-Portal program. I developed algorithms with led, fuse, stepper motor, dc motor, servo motor, encoder. I communicated between two plc's. — 28.02.2021
I developed a small-scale conveyor project with Factory IO.
I made a connection between the hmi screen and the plc

Ecodation — 01.06.2021
Intern — -
I took an Oracle SQL course and did internship. I modeled the Hepsiburada.com. I drew the E-R diagram. — 30.06.2021

Zake Mühendislik — 1.10.2021 -
Intern — 21.10.2021
I helped automation the pharmaceutical factory.
At the same time, I carried out projects on plc.

🎓 Education

Bolu Abant İzzet Baysal University
Elektrical and Electronics Engineering
3.20

👤 COURSES

- Udemy/Online Commerical Automation with ASP.Net MVC5
- Udemy/C#
- Ecodation/Oracle SQL
- MSSQL/ Murat Yücedağ
- Kodlama.io/Programmer Training Camp with C#
- MVC/Murat Yücedağ
- EntityFramework/Murat Yücedağ
- Udemy/Design Patterns
